

EUGINE WEKESA JUMA

Aspiring Software Engineer | Front-End & Full-Stack Web Development

254722732675 • www.linkedin.com/in/eugine-weks-b22652384 • github.com/eugine-weks

PROFILE

First-year BSc Information Technology student and aspiring software engineer with a strong focus on front-end web development and a growing full-stack development skill set. Proficient in building responsive, interactive web experiences using HTML, CSS, JavaScript and TypeScript. Founder of Fixera Platforms, a venture focused on engineering scalable, robust and AI-driven platforms that address real-world challenges. Driven by practical problem-solving, continuous learning and the development of secure, scalable digital solutions.

TECHNICAL SKILLS

Front-End	HTML5, CSS3, JavaScript, TypeScript, Responsive Web Design
Development	React, Node.js, Express.js, PostgreSQL, MySQL, REST APIs, Git & GitHub
Foundations	C and C++ for data structures and problem-solving foundations

VENTURE

Fixera Platforms — Founder

A technology venture focused on engineering scalable, robust and AI-driven platforms that solve day-to-day real-world challenges in society through practical digital solutions.

FEATURED PROJECTS

Personal Portfolio — Completed

Designed and developed a responsive personal portfolio website showcasing skills, projects and developer profile, with attention to responsive UI, performance and modern web presentation.

CAP Church Management System — Front-End Complete | Backend in Development

A church management platform designed to support a public-facing church presence and member-oriented digital services. The front end is complete while backend functionality is currently under development.

Hustle Kona — Future Project

A platform concept connecting local residents with blue-collar job opportunities, with a focus on practical manual-worker roles such as supermarket attendants and other local service personnel.

Events Flow — Future Project

A WhatsApp-first event platform concept powered by an AI chatbot for event booking and management, including QR-code ticket processing and integrated M-Pesa payments.

EDUCATION

Kibabii University	BSc Information Technology — 1st Year, 2026
Chewoyet National School	2021 – 2024
Ndalu RC	2009 – 2020

CAREER INTEREST

Software engineering, full-stack web development, scalable web applications, AI-driven platforms and practical digital solutions.
